Nouméa's 3 jewels discovery

This is an excellent option for those seeking a relaxing tour of the best and most famous attractions of the city. Before starting the actual tour, you will stop at the local market located on Baie de la Moselle and maybe be tempted by the many art and craft stalls. You will then drive up to the Botanical gardens and cagou bird sanctuary- a place of tranquility overlooking the city. The Sanctuary covers 85 acres and houses a large variety of wild and domestic birds. On the way, we will stop at the Ouen Toro lookout for a mesmerizing view of the barrier reef and the surrounding lagoon. Continuing to Tjibaou Cultural Centre, designed by the world famous architect Renzo Piano, the centre showcases exhibits and collections of Kanak and Pacific cultures- it is the perfect place to discover more about the Indigenous culture of New Caledonia and Kanak's customs and traditions. Your driver will make you discover the breathtaking view of Lemon Bay and Anse Vata areas, before dropping you off at the newly refurbished aquarium- a wonderful showcase of the New Caledonian lagoon. Nouméa's aquarium is also one of the only places in the world where you can see the Nautilus. From the aquarium, you will continue to l'Atelier Gourmand, our famous French bakery and pastry shop, for lunch. After lunch you are free to either stroll along the seafront, have a swim, or do some shopping at the many small boutiques located on Anse Vata at Palm beach shopping centre.

Blue River National Park Tour

Unique and worthwhile! We are very proud to give you the opportunity to visit such a wonderful and unspoiled place as Yaté and the Blue River National Park. Escape to the tranquility of the Deep South with us and discover a land of contrasts where the lush green vegetation and the unusual color of the earth associate with blue emerald rivers to fill your eyes up with pure beauty! Departing the wharf you will head for Yaté, located about 2 hours drive from Nouméa. On the way you will take in the sight of many cultural and natural landmarks such as the tribal village of Saint Louis, the artificial lake of Yaté, the valleys of Mt Dore commune, the Church of Miracle at La Conception, etc... You will continue towards the Blue River National Park, covering over 9000 hectares. With your guide, discover botanical tracks, learn more about the native plants and the way locals are using them in traditional medicine, hear about the hunting techniques of Melanesian people, be mesmerized by the strange atmosphere at the Drowned Forest site, try to be the first one to spot our famous local bird (the cagou) in its natural habitat, etc...before enjoying a delicious Caledonian BBQ (deer kebabs, marinated chicken drumsticks, French wine, local fruit juice, and much more !). Later in the afternoon, drive towards "La plaine des Lacs" to discover the majestic Madeleine Waterfalls- another jewel of the South - A guided tour along the well-marked walkway through this sanctuary provides an insight into the flora of the South of New Caledonia. On the way back to the ship terminal, your guide will stop at a cute little place owned by a local family where you can enjoy the best milkshakes! All natural ingredients and totally fresh milk - what more could you ask for?

DUCK ISLAND

Discover the lagoon in all simplicity. The taxi boats offer a shuttle service to the island.

The beach: Sheltered from the wind, deckchairs and parasols are available to offer you an unforgettable moment of relaxation and leisure. For greater comfort, small traditional huts that can welcome up to 4 people as well as private lounges can be rented for the day. The huts and the lounges have to be booked in advance. However, no booking is required for the deckchairs. This space was created for relaxation and calm.

The underwater path: The island is classified as marine reserve and the underwater path as Unesco World Heritage. The team works closely with the Introduction to Environment Centre in order to preserve the island's natural reserve, one of New Caledonia's treasures. The underwater path invites you to discover the lagoon's richness, in the heart of an exceptional fauna and flora. All you have to do is follow the submarine delineated path, only needing a mask and a snorkel! You can also rent the snorkeling gear if you wish to. Volunteers from the Introduction to Environment Centre are on the island at weekends and bank holidays to share their passion and their knowledge about the surrounding fauna and flora.

The restaurant: In a traditional setting (large traditional hut, entirely sculpted by the Kanak artist Timothée Nemba, the island's restaurant "Le Faré" suggests specialties in a refined and relaxed atmosphere. On the menu you will have the choice between the grill and the snack bar. Open every day throughout lunch from 10:30 am to 4 pm, without booking required.

The open-air museum: Art found shelter on the island. In harmony with the natural environment, around forty artists from the Pacific exhibit their work. An open-air museum which allows the mixture of traditional and modern art.

The parties: We organize private parties, birthdays, weddings, works councils or simple parties with friends. Whether it is in a small group for an exceptional dinner or to welcome up to 500 people, we will find the best offer for you.

Gull Island

25 minutes from Nouméa, Gull Island was classified as a reserve in 1995, for the protection of a Dougall tern colony, which is on the island during the nesting period. The island is closed to the public from the 1st of November to the 28th of February. It is very small with vegetation limited to a few bushes and little shade so do not forget a hat and sunscreen. The island is heaven for kite and wind surfers. The lagoon's crystal-clear waters and the superb coral chains need to be discovered with a mask and snorkel.

From 3.000 XPF to 7.000 XPF depending on the number of passengers

Larégnère Island

30 minutes away from Nouméa, Larégnère Island, which seems to float on the lagoon's waters, has set areas for camping with available huts and barbecues. There is no wood on the island, so you will have to bring coal, as advised for all the lagoon's islands. Larégnère is also perfect for kite surfing and windsurfing. Naturally, you can snorkel on the island's reef drop-off or in the island's northern area which is deeper.

From 3.000 XPF to 7.000 XPF depending on the number of passengers

Signal Island

35 minutes away from Nouméa, Signal Island is situated close to Dumbéa's channel. It is one of the biggest wooded islands of the southern part of the lagoon and an exceptional site when it comes to the marine biodiversity.

Its endemic vegetation is common to the southern islands. However, the presence of a dry forest when one wanders into the heart of the island makes it unique. It is also possible to camp on the island where some designated areas with small huts and barbecues have been set.

A path, built in order to preserve the marine birds' nests, offers a small hike and leads you into the island to discover the dry forest and a lighthouse's remnants.

From 3.500 XPF to 8.000 XPF depending on the number of passengers

WHALE WATCHING

From July to September , the southern part of the lagoon offers the possibility to experience the return of the humpback whales : an opportunity to discover and approach these animals by witnessing their often impressive demonstrations.

The humpback whale is a migratory species: after feeding in Antarctica during the summer months, it spends the winter in tropical waters of our beautiful lagoon to breed. You are going to be in a catamaran to observe them in accordance with the charter of good conduct that organizes this activity. The skippers have received training from the Southern Province and working together with scientists.

We offer day trips from 6.30 am to 6.30 pm with daily departures from Noumea.

DEEP SEA FISHING

LAGOON TRIPS

Deep sea fishing is one of the territory's particular hobbies. For several years now, New Caledonia has been claimed to be one of the best destinations for deep sea fishing.

Olivier, the only IGFA (International Game Fish Association) captain in New Caledonia, will take delight in teaching you on his boat specially built for fishing activities and submarine hunting and bringing you to the best places he has discovered in the last 20 years.

Built in New Zealand, this 15-metre long and 5.5-metre wide catamaran equipped with two Caterpillar 300 hp engines combines the comfort of catamaran sailings with the pleasure of sailing rapidly in the lagoon as well as in high seas.

FLY OVER THE LAGOON

amphibian plane

Discover New Caledonia from above!

Rise above and discover the Caledonian gem. World Heritage of UNESCO since 2008, its lagoon is home to wonderful dolphins, whales, dugongs ... It is dotted with idyllic islands that only an aerial view will allow you to appreciate the true value.

From Nouméa several circuits are offered: discover the western part of the lagoon with a flight over many reefs and islets. explore the southern zone with Escapade Island, Gull Island, Amédée island...

The amphibianultralight "side-by-side" will allow you both to take off from the water as well as from a traditional ground with its retractable landing gear. You will be protected from the wind thanks to a tinted windshield. The lack of a full canopy will offer you the opportunity to take wonderful souvenir photos of the lagoon, without visual obstruction. The cruising speed will allow you to fully appreciate the overview of the lagoon and admire dugongs and dolphins.

You will have all the time you wishto experience the thrill and joy of aviation pioneers during their first flights.

The departure is from Nouville's launching. Take-off and landing are done in the great harbor, on a platform created by the company and for its exclusive use.
